I certify that I have read this dissertation and that, in my opinion, it is fully adequate in scope and quality as a dissertation for the degree of Bachelor of Engineering.

(Kimio Kuramitsu) Principal Adviser

Approved for the University Committee on Graduate Studies

Abstract

Write an abstract.

Acknowledgements

To write this thesis, many people have helped me.

First, I would like to thank my associated professor Kimio Kuramitsu for giving me chances and teaching me about this study. Second, I also thank member of Kuramitsu Laboratory for all. Especially, Alice, who is 1st-year graduate students, taught me basic technical knowledge for this thesis and gave me mental advice. Thank you for Ph, D, student Bob who discussed me in many topics. Thank you for 2nd-year graduate student, Charlie who always helped me when I write this thesis. Thank you for another 1st-year student Dezmond, who gave me several important advice. Thank you for all that 4th-year undergraduates Ernesto were my good counselors.

Beside them, thank you for my family and friends. In particular, I would like to thank you for my parents who are bring up me for 23 years.
