

無限ループに対応した WEB プログラミング教育環境
WEB PROGRAMING ENVIRONMENT FOR INFINITE LOOP

A DISSERTATION
SUBMITTED TO THE DEPARTMENT OF COMPUTER
ENGINEERING
AND THE COMMITTEE ON GRADUATE STUDIES
OF YOKOHAMA NATIONAL UNIVERSITY
IN PARTIAL FULFILLMENT OF THE REQUIREMENTS
FOR THE DEGREE OF
BACHELOR OF ENGINEERING

0844070 Taihei Sugimoto

January 2012

I certify that I have read this dissertation and that, in my opinion, it is fully adequate in scope and quality as a dissertation for the degree of Bachelor of Engineering.

(Kimio Kuramitsu) Principal Adviser

Approved for the University Committee on Graduate Studies

Abstract

Write an abstract.

Acknowledgements

To write this thesis, many people have helped me.

First, I would like to thank my associated professor Kimio Kuramitsu for giving me chances and teaching me about this study. Second, I also thank member of Kuramitsu Laboratory for all. Especially, Alice, who is 1st-year graduate students, taught me basic technical knowledge for this thesis and gave me mental advice. Thank you for Ph, D, student Bob who discussed me in many topics. Thank you for 2nd-year graduate student, Charlie who always helped me when I write this thesis. Thank you for another 1st-year student Dezmond, who gave me several important advice. Thank you for all that 4th-year undergraduates Ernesto were my good counselors.

Beside them, thank you for my family and friends. In particular, I would like to thank you for my parents who are bring up me for 23 years.

Chapter 1

Introduction

write an Introduction

Chapter 2

Background

近年、Web プログラミング環境が普及している。

- e.g1)DART:Google によって開発された Web プログラミング環境
- e.g2)codepad:13 の言語のプログラムの実行結果を表示可能なプログラミング環境

特に、教育を目的に構築された Web プログラミング環境は大学等において使用されてきており、注目を集めている。

- e.g)ELP:コード解析機能を持った Web プログラミング教育環境
穴埋め形式の授業で用いられている

我が研究室では KonohaScript 教育用 Web プログラミング環境『 aspen 』を開発し、実際の授業で使用した。
